Block sign-in

Alex_Finance@AnojLab.onmicrosoft.com

Blocking someone prevents anyone from signing in as this user, and is a good idea when you think their password or username may have been compromised. When you block someone, it immediately stops any new sign-ins for that account, and if they're signed in, they'll be automatically signed out from all Microsoft services within 60 minutes.

This won't stop the account from receiving mail, and doesn't delete any data.
